

# Northern Ireland

We've summarised the key findings from the 2023 Council Climate Action Scorecards to provide an overview of Northern Irish councils' climate action.

The scores vary across Northern Ireland, and on average, Northern Irish councils score lower than other nations in the UK. Northern Irish councils have fewer powers than other councils in the UK in relation to schools, housing and transport.

Whilst most legislation is the same across all four nations, Northern Irish and English councils (unlike in Wales and Scotland) do not have a statutory duty to work towards net zero across their whole operations or council area.

## Average score by Nation

**21% Northern Ireland<sup>1</sup>**

- 13% Lowest NI council score  
- 43% Highest NI council score

**30% Wales**

**34% Scotland**

**35% England**  
Single Tier councils only

## LEADING THE WAY

**9 out of 11**

- councils have committed to no new building developments on functional flood plains<sup>2</sup>
- councils have committed to mowing their green spaces less for wildlife<sup>3</sup>

**100%**

All Northern Irish councils provide weekly kerbside food waste recycling<sup>4</sup>

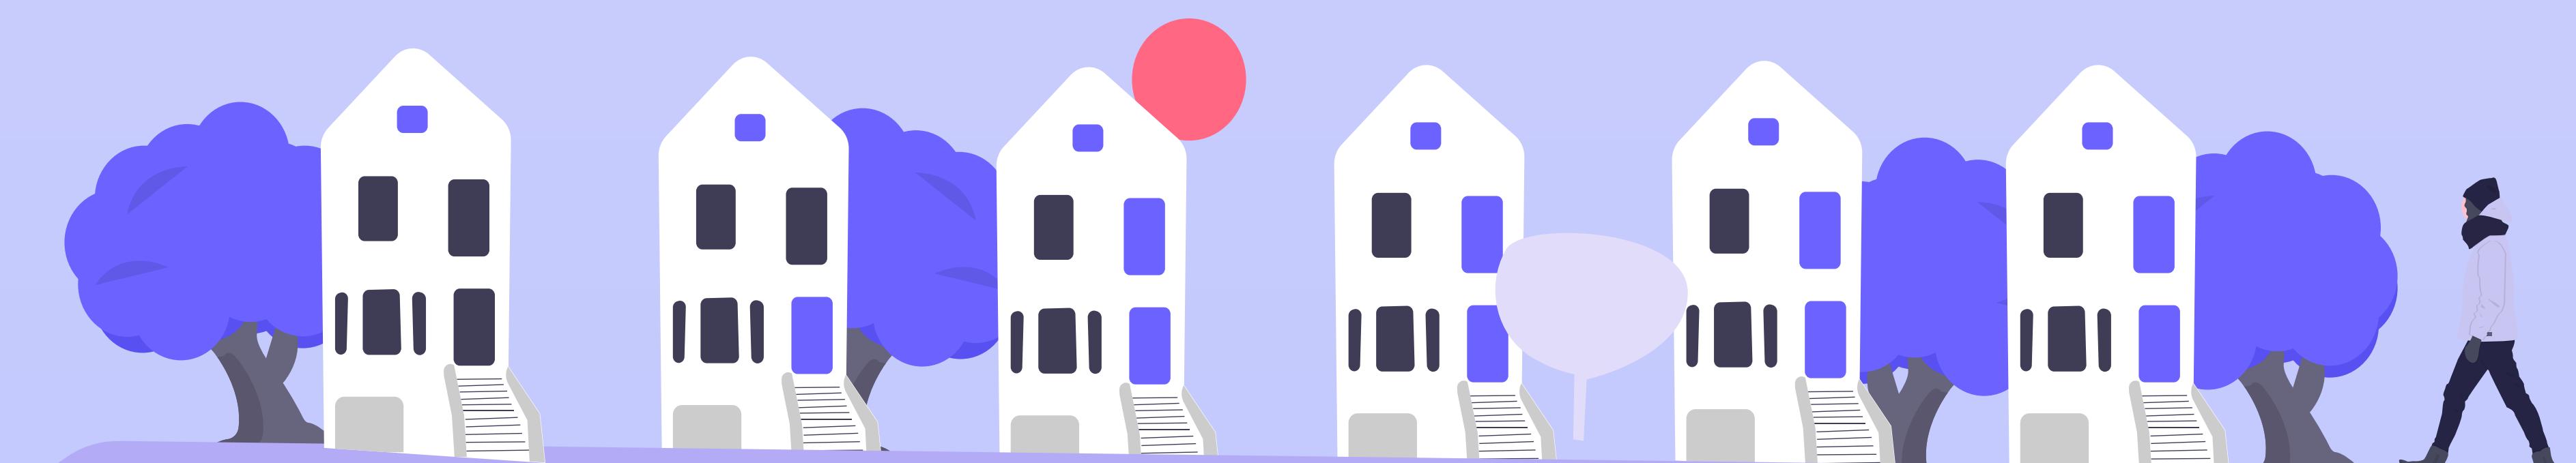

## ROOM FOR IMPROVEMENT

**5 out of 11**

councils have lobbied the UK government or the NI Executive for further climate action<sup>5</sup>

**6 out of 11**

councils have a named Cabinet member or Portfolio holder lead for climate action<sup>6</sup>

## FALLING BEHIND

**1 out of 11**

**Fermanagh and Omagh District is the only council in Northern Ireland that has 10% or more of its council fleet as electric vehicles<sup>7</sup>**

**2 out of 11**

councils have trained all their senior staff and councillors who are cabinet or committee chairs in climate awareness<sup>8</sup>

**0 out of 11**

No council has published an up to date and easy-to-read annual report on their Climate Action Plan<sup>9</sup>

No council requires new homes to be built to operationally net zero standards by 2030<sup>10</sup>

No Northern Irish council powers their buildings with a renewable energy tariff<sup>11</sup>
